

## [ **Biography** ]

### **2001**

The Eclat project starts in late 2001 from the hands of Giulio Andreini and Francesco Parra, two dj's/producers from Pisa/Italy trying to contribute to the most sophisticated international dance scene.

### **2002**

With their back to back dj set the duo achieve the promoters attention since the very beginning of the project life, participating to all of the main Italian music events and festivals.

To complete this first intense period Eclat is selected from Red Bull to join the 2002 edition of the **Red Bull Music Academy** in Sao Paolo/Brazil where they have the chance to face, relate & network with a bunch of dj's, producers & promoters from all over the world including Carl Craig, Ectomorph, Zed Bias, Gotan Project, Roman Fluegel (Alter Ego), Four Tet and many others.

After this life-changing experience Eclat come back to Europe and is invited to play in some clubs all over Spain, Germany and Italy.

### **2003**

The dj set is continuously developing with time, becomes less minimal and moves to a more housy feeling. The deep musical culture of the duo and a constant attention to all that is released in the musical scene makes the dj set an incredible machine for the most demanding dancefloors with a surprising attention to the quality of sound and compositions that are played.

At the same time Eclat starts a rich production activity and several collaborations with some producers.

The very profitable collaboration with **Prudo** (aka Marzio Aricò/DRM), led to the realization of some tracks which caught the attention of renowned British label **Music For Freaks**, the Classic's sister label founded by Luke Solomon and Derrick Carter which has released single hits from Freaks, Kenny Hawks, Tony Senghore, Phil Weeks, Derrick Carter, Stefan Goldmann and many more..

### **2004**

"*Where We Go, You Don't Know*" is the first release on Music For Freaks (July 2004) and all the three tracks included in the EP are played and supported by all the most important house djs around the world.

With this first kicking release Eclat and Prudo, become part of the international house scene. After the first MfF the duo releases some other tracks and rmx for **WashHouse** (UK), **Trapez Ltd** (Benefit Idiots EP, Germany), **Anorak** (remixing the Faceline track of Popnebo), **Pias** (remix for The Real Tuesday Weld).

The second release on Music For Freaks is "*What's Happening in Pisa*", which once more confirm the high quality and personality of their sound. The title track is a sort of answer to all people wondering about what's going on in this part of the world. .

During 2004 Eclat keep up djing in many clubs, including very important and exciting performances at Tenax club in Florence, and their participation to the MTV Clubbing Night Event .

They also performed in Torino, Rome , Bologna, Munich (Faceline EP Party) and Spain for the FAD festival sponsored by Red Bull Music Academy.

### **2005**

This year Eclat have been djing around Italy and Europe, in June they have been performing at the closing party of the Red Bull Lounge at the **Sonar** on Saturday evening.

After setting up the new studio in the beautiful countryside near Pisa, they're now spending a lot of time working on the next releases.

They'll soon release some new tracks on some German and American labels with remixes by **Freestyle Man** (moodmusic), **Honest Cars** (lavish habits/select recordings u.s.), **Luke Solomon** (Music For Freaks), **Superjuno** (Tenax Recordings) and, of course, **Prudo**!

The next fall/winter Eclat will have a monthly residency at elephant c/o dresscode (ponsacco/pisa)... for more information: [www.metempsicosi.com](http://www.metempsicosi.com).
